Activity 1:

Volunteering: My passion in flying. When I have free time I go to an association to restoration an old aircraft. Right now we are fixing an American DC3 from the second world war. Also in the future I will do guided school visits, or other beneficial activities for the association. I love it because I learn a lot and I talk with others volunteering about aviation issues, and, of course, saving the aeronautical heritage.

Activity 2:

Fly with a plane and travel: When I have a free Saturday, I go to the next aerodrome to fly with some friends from the association that I help. Sometimes I fly with some airline pilots that they have a private plane. With them we fly around our island. Of course I love travel, and as I can I do with my family or when there is an opportunity.

Activity 3:

Sports: Judo is my favorite sport. I do it since I was 5 years old. Mention that I am top elite athlete of regional competition. This year I train almost every day and I attend all the different championships. For the first time I have debuted in a National competition. Also I love playing different sports and I also go hiking with my parents some weekends and when we are on holidays, in our country, or sometimes we do some travel to other countries to do hiking and visit museums.

Activity 4:

Be with my friends and family: When I have a little free time and I don't do sports (judo) or I don't go to help or fly with the airplanes, I like to be with my friends and family. As I live near the forest and the mountains, sometimes we go mountain biking or just walking around the town. Of course and depends of the season, I help to my parents to gardening the house where we live. Sometimes I cut the grass, make firewood or clean our garden and the pool.
